PROFESSIONAL SUMMARY

UX/UI Design Consultant with **4+ years of professional experience across enterprise technology, digital product design, and visual communication**. Currently working on enterprise product initiatives at Grundfos, contributing to UI documentation, accessibility QA platform redesign, interface testing, Design System compliance strategies, and crawler evaluation frameworks. Skilled in Figma, wireframing, high-fidelity UI design, and cross-functional collaboration with product and engineering teams. Combines an engineering background with a strong visual design foundation to create consistent, accessible, and user-focused digital experiences.

CORE SKILLS

UX/UI Design: User Interface Design, Wireframing, High-Fidelity UI Design, Digital Product Design, Interface Documentation

Product Design: Product Redesign, Design Consistency, Visual Hierarchy, Layout Systems, Interface Review

Accessibility and Quality Assurance: Accessibility Testing, Issue Identification, Design System Compliance Concepts, Scan Coverage Reporting

Design Tools: Figma, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Adobe Premiere Pro, Canva

Technical Collaboration: Engineering Collaboration, Product Team Collaboration, Functional Testing, Playwright-Based Evaluation Strategy and Rulebook Documentation

PROFESSIONAL EXPERIENCE

UX/UI Design Consultant Nov 2025 – Present
Grundfos

- **Asset Monitoring Platform:** Document existing UI screens and establish a structured interface reference to support product review and consistency.
- **Accessibility QA Platform:** Contribute to the redesign of the existing platform, test functionality, and identify potential issues affecting user experience and product quality.
- **Design System Compliance:** Propose integrating Design System compliance checks into the Accessibility QA platform to extend its quality assurance capabilities.
- **Universal Crawler Strategy:** Develop a structured strategy for a single-URL crawler intended to support accessibility and Design System compliance checks.
- **Rulebook Development:** Define a structured rulebook describing the checks for a Playwright-based crawler approach.
- **Scan Coverage Reporting:** Incorporate scan coverage reporting into the proposed approach to improve visibility into evaluation scope and assessed areas.
- Collaborate with product and engineering stakeholders to support design evaluation, testing, and improvements to enterprise product experiences.

Senior Graphic Designer Feb 2025 – Oct 2025
Sociall.in

- Designed digital advertising creatives and visual campaigns for brands across multiple industries.
- Developed brand identity systems and maintained visual consistency across social media, websites, and paid advertising.

- Created reusable design templates and asset libraries to support consistent and efficient creative production.
- Collaborated with content strategists and marketing teams to align visual deliverables with campaign objectives.
- Applied typography, color theory, composition, and visual hierarchy to produce marketing-focused design assets.

Product Designer Intern Mar 2024 – May 2024
Grafixui

- Designed digital interfaces and internal tool UI layouts, focusing on visual clarity, layout consistency, and brand alignment.
- Created icon sets and vector illustrations for product and marketing communication.
- Developed presentation decks, banners, and internal communication visuals for cross-functional teams.

Assistant System Engineer Jan 2022 – Feb 2024
Tata Consultancy Services

- Designed internal emailers, presentation templates, and infographics for enterprise communication.
- Created UI mockups and visual assets supporting consistent branding across internal tools.
- Collaborated with communications and design teams to maintain visual standards across enterprise deliverables.

Campus Ambassador – UX and Product Focus Oct 2021 – Dec 2021
WolfersTech

- Designed event posters and digital marketing assets for student-focused initiatives.
- Supported visual branding for campus events and social media campaigns.

UX/UI PROJECTS

Accessibility QA Platform – Redesign and Testing

Focus: Product Redesign, Functional Testing, Accessibility QA

- Contributed to the redesign and testing of an existing accessibility quality assurance platform. Evaluated functionality, identified potential issues, and proposed extending platform capabilities through Design System compliance checks.

Universal Crawler – Strategy and Rulebook

Focus: Accessibility Evaluation, Design Systems, Playwright-Based Checks

- Developed a structured strategy and rulebook for a proposed single-URL crawler approach supporting accessibility and Design System compliance checks. Included scan coverage reporting to improve transparency into the areas assessed.

Asset Monitoring Platform – UI Documentation

Focus: Enterprise UI, Interface Documentation

- Documented existing platform screens to establish a structured reference for reviewing and understanding the Asset Monitoring Platform interface.

InkTales – Comic Rental App View Case Study

Tools: Figma, Adobe Photoshop

- Designed app branding and character-based UI visuals, emphasizing illustrative iconography and an engaging visual experience.

StayHub – Hotel Booking App View Project

Tools: Figma, Adobe Photoshop

- Worked on the booking flow, focusing on clearer call-to-action hierarchy and streamlined navigation through the booking experience.

Bikessy – Buy and Sell Bike Platform View Project

Tools: Figma, Adobe Photoshop

- Designed product interface visuals with an emphasis on contrast, trust signals, and clear visual hierarchy for a marketplace experience.

EDUCATION

Bachelor of Engineering – Electronics and Communication Engineering 2017 – 2021
St. Joseph's College of Engineering
